Date: November 20, 2009

SUBJECT: SPECIAL TRANSMISSION FLUID REQUIREMENT

APPLIED VEHICLES: All Nissan Models Equipped with Continuously Variable Transmission (CVT/eCVT)

SERVICE INFORMATION

If the CVT/eCVT transmission in any Nissan Model requires service, a special type of transmission fluid **MUST** be used. The required fluid for all CVT-equipped Nissan models (except Altima Hybrid) is Nissan CVT Fluid NS-2. Altima Hybrid Electric vehicles utilize a unique eCVT transaxle and require Nissan Matic W fluid.

Nissan CVT/eCVT Fluid Requirements

- Nissan's CVT/eCVT transmissions contain internal components that require the use of the specified fluids **only!** See Part Number information below.
- Only the fluids described in this bulletin are specially formulated to meet the exacting requirements of the continuously variable transmissions in Nissan vehicles.

CAUTION:

- **DO NOT USE** any other A/T fluid for these transmissions; Use only the fluid as specified in this bulletin. **DO NOT MIX** with other fluids.
- Use of any other automatic transmission fluid, such as Nissan Matic D, J, or S will damage the CVT/eCVT.
- Damage to a CVT/eCVT caused by the use of any fluid other than specified in this bulletin, is not covered under the NISSAN warranty.

PARTS INFORMATION

TRANSMISSION DESCRIPTION	APPLIED MODELS	FLUID DESCRIPTION*	PART #	QUANTITY
CVT	All with CVT (except Altima Hybrid)	Nissan CVT Fluid NS-2	999MP-NS200P	As needed. Check Service Manual or Owners Manual for total capacity
Altima Hybrid Transaxle (eCVT)	Altima Hybrid only	Nissan Matic W	999MP-MTW00P	Same as above

*Nissan CVT Fluid NS-2 and Matic W can be obtained from your local Nissan dealership.

WARRANTY INFORMATION

NOTE: Nissan CVT Fluid NS-2 is the **ONLY** approved fluid for use in Nissan CVT transmissions. Nissan Matic W is the **ONLY** approved fluid for use in Altima Hybrid eCVT transaxles. A claim to Nissan for warranty, service contract, or goodwill repairs to the CVT or eCVT transmission may be denied if proper fluids are not used as specified in this bulletin.
